

# Family Fractions

Look around your house and ask your family for help creating these fractions!

What fraction of your family are boys?

What fraction of your family are girls?

What fraction of your family is 10 or older?

What fraction of your house (how many rooms) is carpeted?

What fraction of your house (how many rooms) has wood floors?

What fraction of your family has hair longer than their ears?

What fraction of your family likes chocolate?

Create and answer two fraction questions of your own.....

1)

2)
